

POLICY

Subject: Library Photography

Adopted: May 10, 2016

Reviewed: August 9, 2022

The Dickinson County Library reserves the right to utilize photographs or video taken at the library for publicity purposes in printed materials, displays, and online to promote the value and use of library services. Patrons are asked to inform Library staff if they object to such use.

Staff will make an effort to ensure everyone is aware of the situation and will be respectful of anyone who declines to participate. If a patron objects to an image the library has used, it will promptly be removed.

No names will be used in conjunction with photos or videos without express written consent provided by the Personal Appearance Release. Releases will be kept on file; future consent may be withdrawn by notifying Library staff.
